linear shower drains and systems for bathrooms

Profilpas offers a wide range of solutions for bathrooms which combine functionality and modern design. In particular, Profilpas bathroom systems allow the creation of floor-level showers, with a wide selection of linear shower drains - like PP Drain Aqua, Thin Drain, Slim Drain and Smart Drain, all customizable with different grates - and Q-Drain, available in several models. Profilpas bathroom range also includes Glass Profile, a line of profiles for the insertion of glass walls and the finishing of the shower surface, designed to compensate the 2% slope.

ppdrain|Aqua

The linear shower drains PP Drain Aqua, made of stainless steel AISI 316 and provided with a patented removable siphon in antibacterial ABS, are a perfect synthesis of beauty and practicality. Profilpas has taken care of every aspect of their design, production and quality control, to offer a product that is always efficient and aesthetically perfect.
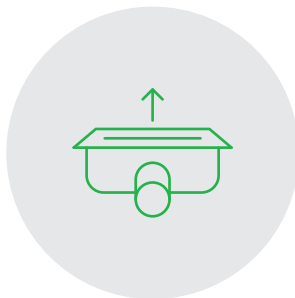

The linear shower drains PP Drain Aqua, composed of a single piece without welds, distinguish for their design and functionality that make them elegant, simple to install and easy to clean. Each part of the shower drain is studied in detail, to contain in few components all that is needed to guarantee the maximum ease of installation and maintenance.

| Aesthetics	Removable siphon	Ease of installation	Cleanliness and hygiene
Elegant and exclusive design, customisable with a wide range of covers and finishes.	The siphon is simple to remove and can be easily inspected, for the maximum efficiency.	The assembly and the adjustment of the shower drain are simplified, for a simple and quick installation.	The removable siphon in antibacterial ABS simplifies the maintenance and allows a quick and efficient cleanliness.

The essentiality of the linear shape of the shower drain, combined to the beauty of the multiple finishes, allows to offer an aesthetically perfect solution, able to adapt to any kind of design and to any material (porcelain stoneware, marble, mosaic, natural stone...).
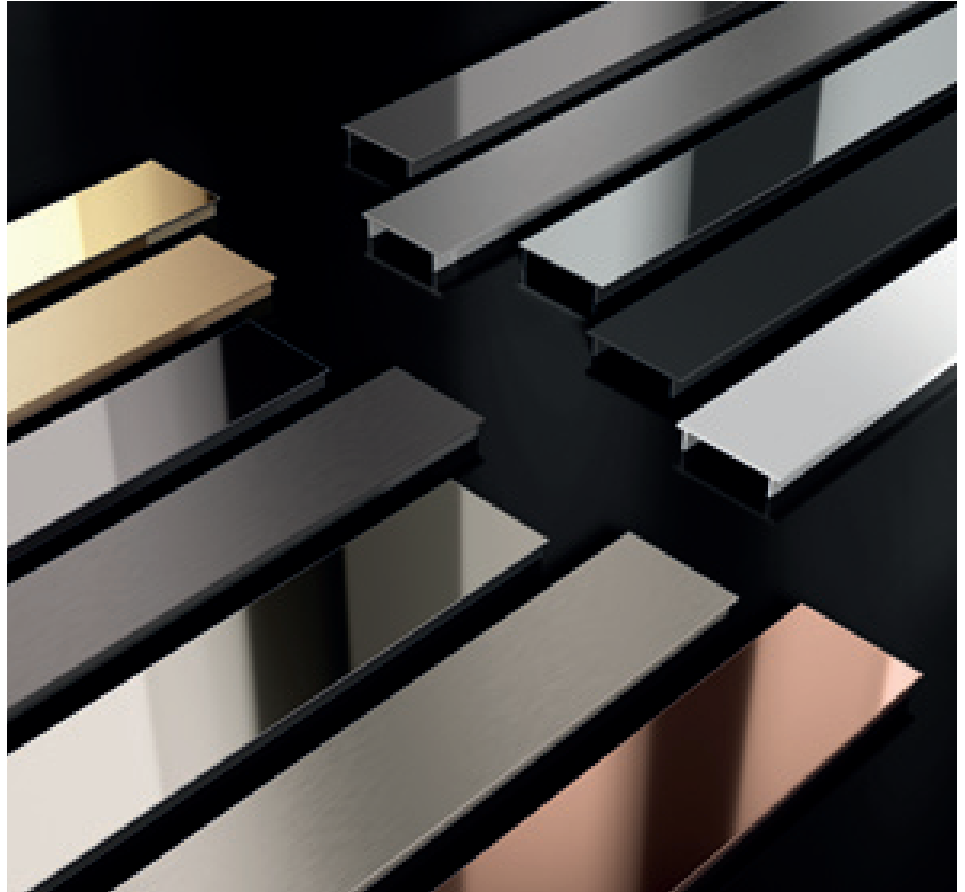

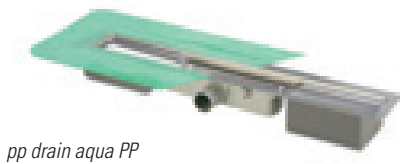

PP Drain Aqua

With PP Drain Aqua linear shower drains, maintenance and cleaning are fully simplified. The siphon, made of antibacterial ABS, can be removed and inspected completely. Furthermore, the AISI 316 stainless steel shower drain base is composed of a single piece without welds and sharp edges for the best hygiene and efficiency. Studied to minimize installation times, they are equipped with a pre-glued waterproofing membrane, supports from 6 to 18 mm for the height adjustment of the covers and bases in polystyrene foam.

thindrain

Thin Drain is a line of flush with the floor shower drains for a quick and easy installation, which allows to customize the shower with any kind of covering. Thanks to the syphon with low thickness and the height of the shower drain of just 55 mm, they are particularly suitable for refurbishments or in spaces where lightness and versatility are the main features.

ADVANTAGES
- Installation flush with the floor (it eliminates architectural barriers)
- Possibility of installation close to the wall
- Height of the shower drain of 55 mm (laying surface)
- Suitable for tiles with thickness up to 12 mm
- Possibility of laying tiles with thickness up to 12 mm with Tile Cover
- Shower drains with certification EN 1253-1 (minimum flow rate of 24 l/min)
- Supports for quick installation
- Integrated waterproof membrane to reduce the risk of seepages
- Possibility of inspection of the syphon for periodic cleaning
- Filter for cleaning/hair
- Quick installation
- Drain adapter from 4 to 50 mm included

Glass Profile

The floor-level shower is a trendy and design element that represents a real opportunity for designing bathrooms of every dimension, highlighting their practicality and beauty. Removing the traditional shower tray, the floor-level shower can be made with the same covering of the bathroom, thus creating a uniform and elegant surface. Moreover, the absence of architectural barriers makes the access easier for children, elderly people or disabled.

Profilpas offers a series of integrated solutions for floor-level showers: a system of linear floor-level drains in stainless steel, with the possibility of also opting for the invisible version, thus creating a whole with the shower ceramic covering, which is completed by a wide range of stainless steel profiles for the insertion of glass walls and for finishing the sloping surface.

Glass Profile is a line of stainless steel profiles designed to cover the difference in height of the surface with 2% slope and create a coplanar surface with a modern and linear design. The range includes two finishes: satin stainless steel and matt black colour coated stainless steel. The versatility of these two colours become guarantee of elegance, assuring a minimalist and trendy effect.

GPS1/SX
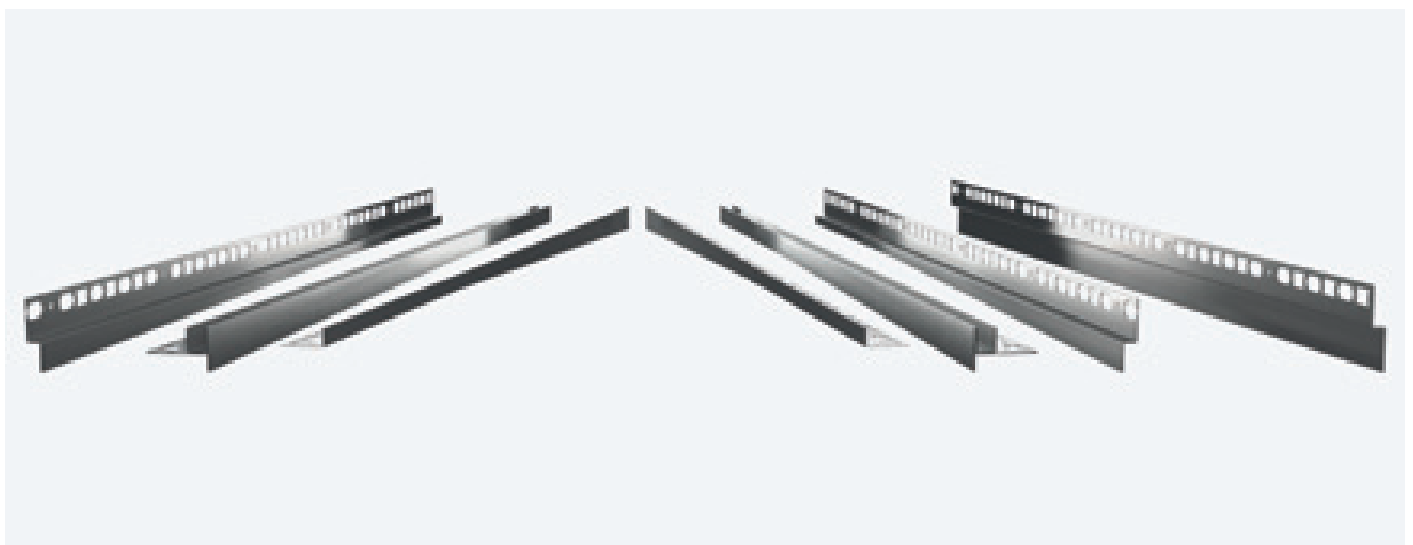

glass profile

Glass Profile GPS1/ is a stainless steel profile for the insertion of glass walls of floor-level showers. GPS1/ is provided with a 2% slope on the shower inner side for a perfect aesthetic solution of the sloped surface.
On completion of the profile, there is GPS/6, the end cap for hiding the section of the glass wall.

Complete the article code with DX and SX (DX = RH and SX = LH) - for example GPS1/ /19 RH becomes GPS1/DX/19.
For a single piece, see sales conditions on page 288

Glass Profile GPS2/ and GPS14/12 are two stainless steel profiles for inserting glass walls on the wall covering. GPS2/ is simple to install, is suitable for tiles of any thickness and does not require drilling. GPS/6 is the end cap to complete the profile, to hide the visible section of the glass wall. GPS14/12 can be fixed directly onto the already-laid wall covering.
