

PVC line skirting board

A range of PVC skirting boards to meet all technical and aesthetical needs. Suitable for both professional and DIY use, some models can be customised using digital printing technology PDS.

skirting board

pvc line

PVC Line 8605 and 8606 are two skirting boards in co-extruded PVC, characterized by a rounded shape and a 70-mm height. Both are composed of a core in foam PVC and a visible surface in coloured rigid PVC to guarantee the best aesthetic result and colour uniformity. 8605 can also be covered with Alcrom® Plus film and can be further customized thanks to the digital printing technology Profilpas Digital System. 8505 and 8606 can be fixed to the wall with adhesive (PP/96) or nails. Moreover, they do not absorb water and are resistant to impact, wear and tear, UV rays and the products normally used for cleaning floors and wall coverings.

PVC Line 8608 is a skirting board in PVC foam, characterized by a round shape and covered with Alcrom® Plus film. Available in several decors, it can be further customized thanks to the digital printing technology Profilpas Digital System. 8608 can be fixed to the wall with adhesive (PP/96 or similar), nails or special fixing clips. PVC does not absorb water, does not contain formaldehyde, is resistant to shocks, wear (certificate AC3), UV rays and the most common cleaning products for floors and wall coverings.

skirting board

pvc line

PVC Line 148 is a skirting board for carpet and PVC coverings, composed of a base in rigid PVC and clip in soft PVC. Used as internal corner connection profile, it creates a curvature on the corner once the covering has been laid. It also allows to finish and cover the extremities of the carpet or the PVC covering, thus covering any cutting inaccuracies. This profile is recommended for public spaces such as hospitals and schools.
