## cerfix® proangle Q

Colour-coated aluminium Trend Color Stone: modern finishes with neutral but warm and soft shades which reproduce the heterogeneity of stone thanks to a rough texture.

Colour-coated aluminium Trend Color Concrete: six original cement-effect finishes that recall the typical metropolis colours by revisiting them from a more refined point of view.

Colour-coated aluminium Trend Color Metal: two special metal tonalities which reproduce the iridescent nature of metals.

ZQVN/10 stone colour-coated aluminium

Proangle Q in stainless steel is a line of universal profiles with square shape, specially designed to edge and protect the external corners of ceramic coverings.

They are also particularly suitable for the edging and the protection of floors and steps in different materials, such as ceramic, stone, wood and resins, and can be also used for finishing worktops and platforms.

Stainless steel makes the profile particularly resistant to chemical and atmospheric agents. The AISI 316 DIN 1.4404 quality offers superior resistance to corrosion and is therefore recommended for applications in areas subject to greater chemical stress, such as swimming pools and food industries, and coastal areas.

ZQLN/10 polished brass

Proangle Q in coextruded PVC is a line of universal profiles with square shape, specially designed to edge and protect the external corners of ceramic coverings. Thanks to the special section with soft PVC inserts, these profiles absorb the micro-movements that discharge on the corner due to the tension of the wall coverings.

## cerfix® proangle

Proangle in aluminium is a line of profiles for edging and protecting the external corners of ceramic coverings. Its L shape outlines clearly tile coverings, such as rectified porcelain stoneware.

Available in different colours and finishes, Proangle can also be used as decorative element, creating refined and pleasant combination/contrast effects with a wide variety of coverings.

ZQVNH/ boasts the certified antibacterial technology (according to the internationally recognized laboratory test JIS Z 2801:2000) which reduces the presence of the most dangerous bacteria up to 99%, thus assuring the best hygiene over time.

Proangle in stainless steel is a line of profiles for edging and protecting the external corners of ceramic coverings. Its L shape outlines clearly tile coverings, such as rectified porcelain stoneware.

Stainless steel makes the profile particularly resistant to chemical and atmospheric agents. The AISI 316 DIN 1.4404 quality offers superior resistance to corrosion and is therefore recommended for applications in areas subject to greater chemical stress, such as swimming pools and food industries, and coastal areas.

AI/10 stainless steel AISI 304 - DIN 1.4301

## cerfix® protrim

Protrim in stainless steel is a line of profiles with rounded shape, specially designed to edge and protect the external corners of ceramic coverings and also recommended for floors, steps, worktops and platforms.

The AISI 304 versions are recommended for food industries, kitchens, hospitals and outdoor spaces, while the AISI 316 versions are suggested in case of difficult applications, such as swimming pools, spas and places exposed to salt.

RI/10 stainless steel AISI 304 DIN 1.4301

Protrim in coextruded PVC is a line of profiles with rounded shape, specially designed to edge and protect the external corners of ceramic coverings. Their shape also acts as symmetric finishing and helps preventing accidents. Thanks to the special section with soft PVC inserts, these profiles absorb the micro-movements that discharge on the corner due to the tension of the wall coverings. Mass-dye coloured, they are available in many different colours and can be used in the most varied spaces.

ART. finishing		H		
		10		
<b>STAINLESS STEEL</b>				
ILE/10	polished stainless steel AISI 304 - DIN 1.4301		95002	
	<b>euro/m</b>		<b>19,67</b>	
ILES/10	satin stainless steel AISI 304 - DIN 1.4301		95003	
	<b>euro/m</b>		<b>21,63</b>	

individually packed

Upon request, we can manufacture ILE/ and ILES/ with different dimensions or in stainless steel AISI 316 - DIN 1.4404.

Complete the article code with H measure (for example ILN/ for H=8 becomes ILN/8)

Upon request, we can manufacture cerfix profiles, probord ILN/ and IL/ with different dimensions.

Please contact our technical department for further information.

For a single piece, see sales conditions on page 288

Cerfix Protop® is a profile for the protection and finishing of external corners of worktops and ceramic-coated kitchens. Also recommended for running boards and steps made with tiles.
